Seminar

Bill 142, Construction Lien Amendment Act, 2017 is finally here and it will have a profound impact on the construction industry.

From liens to holdbacks, to payment timing, trust obligations and dispute resolution, the new Act will dramatically alter the act and the industry - so much so that it will virtually create a new Act all together. In fact, Bill 142 will also change the name of the Construction Lien Act the Construction Act.

Our suggestion? Get ready now!
